Skills

-Painting and Illustration- I am incredibly passionate about and experienced in illustration and painting which I typically do as freelance commission work. I am flexible and tend to work in a variety of styles and am comfortable working in virtually all mediums including oil paint, gouache, watercolor, acrylic, and ink.

-Graphic Design- I am experienced in graphic design having created and aided in the production of promotional materials for a large scale public artwork and accompanying artist gallery exhibition as well as designing all creative and commercial content for my own store. I have a detailed knowledge of Photoshop, Illustrator and Premiere.

-Sculpture- I have worked in a variety of mediums including stone, metal, steel, and wood and have worked on props up to 18 feet tall, and have done masonry as an intern on a 264 ton stone sculpture. I have worked in set design to create both physical and digital assets for theater productions and public displays.
